

First concept

Approximate internal structure

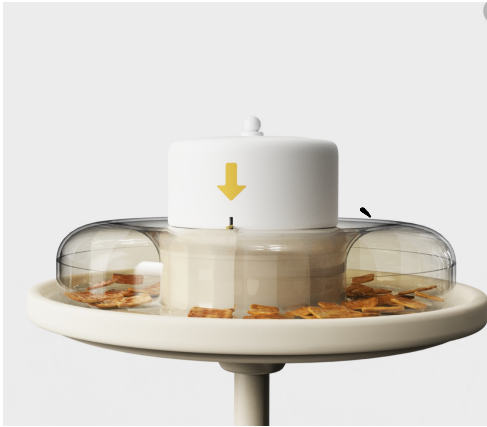

This is the whole product

- Spice bottles upside down in a row.
- The spices drop automatically according to the amount set by the recipe
- The spice bottle is in an airtight space, protected from the sun

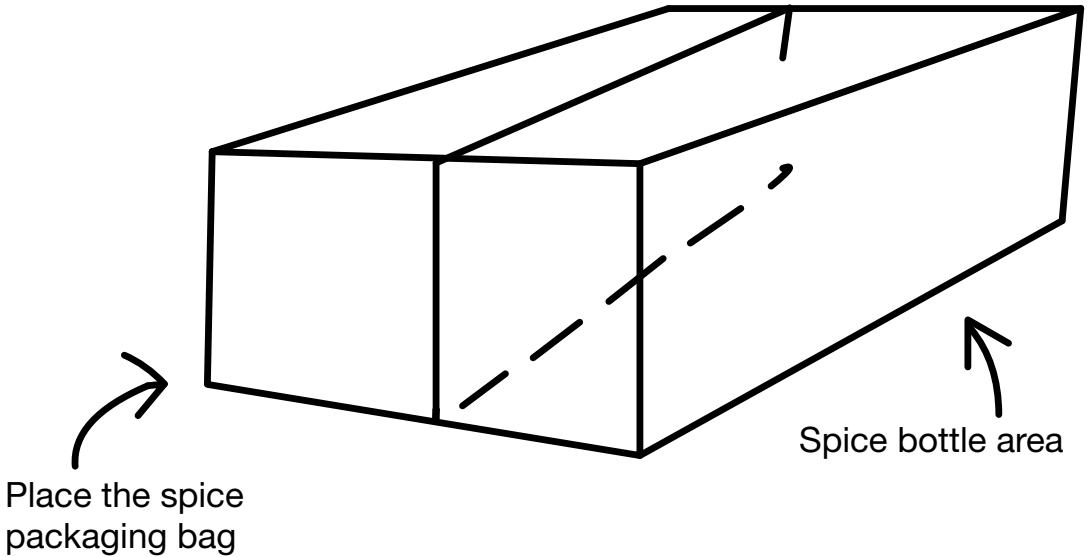

Second concept

Place on desktop

- The spice bottle is placed on a rotating plate
- The spices drop automatically according to the amount set by the recipe
- The top of the product has an opening, and you can take your own spice bottle

Third concept

- Each spice bottle or bag has its own place
 - Set different modes according to different dishes
 - The spice bottle or bag will pop up according to the set time.
- Avoid mixing up spices or forgetting to add a spice
