

WEEK 3

Meeting Minutes

By Team 30

Week 3

In the third week, we received their answers to our question on their brief.

The four answers to the questions

1. 100-300rmb

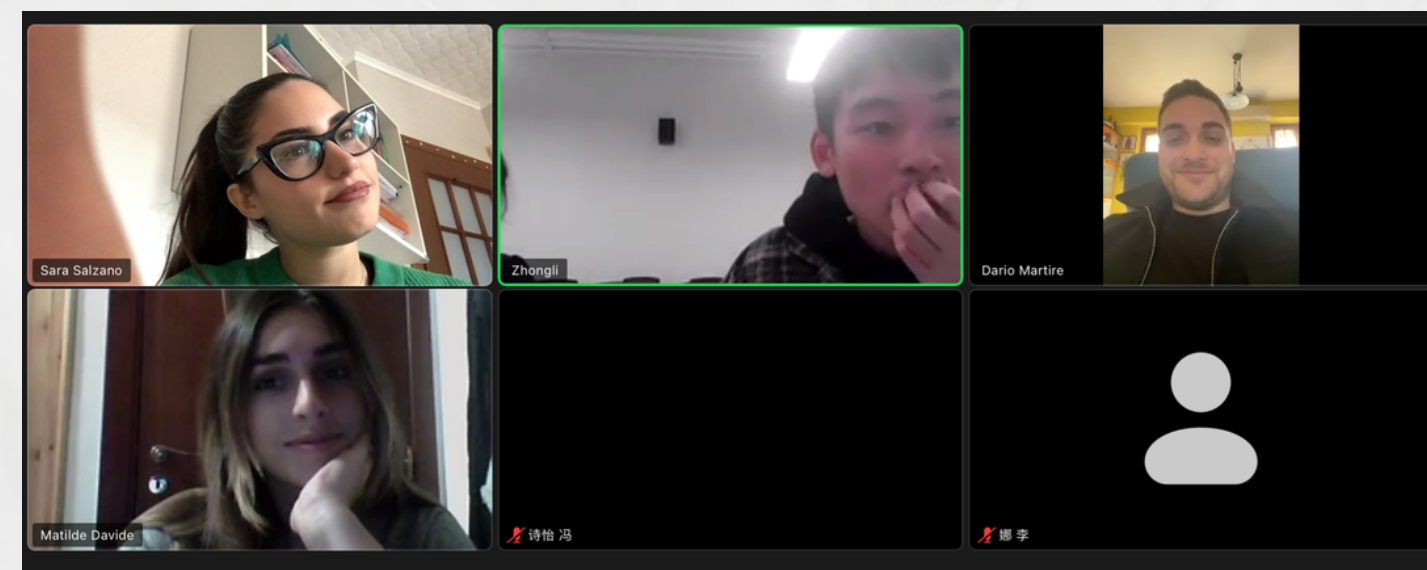

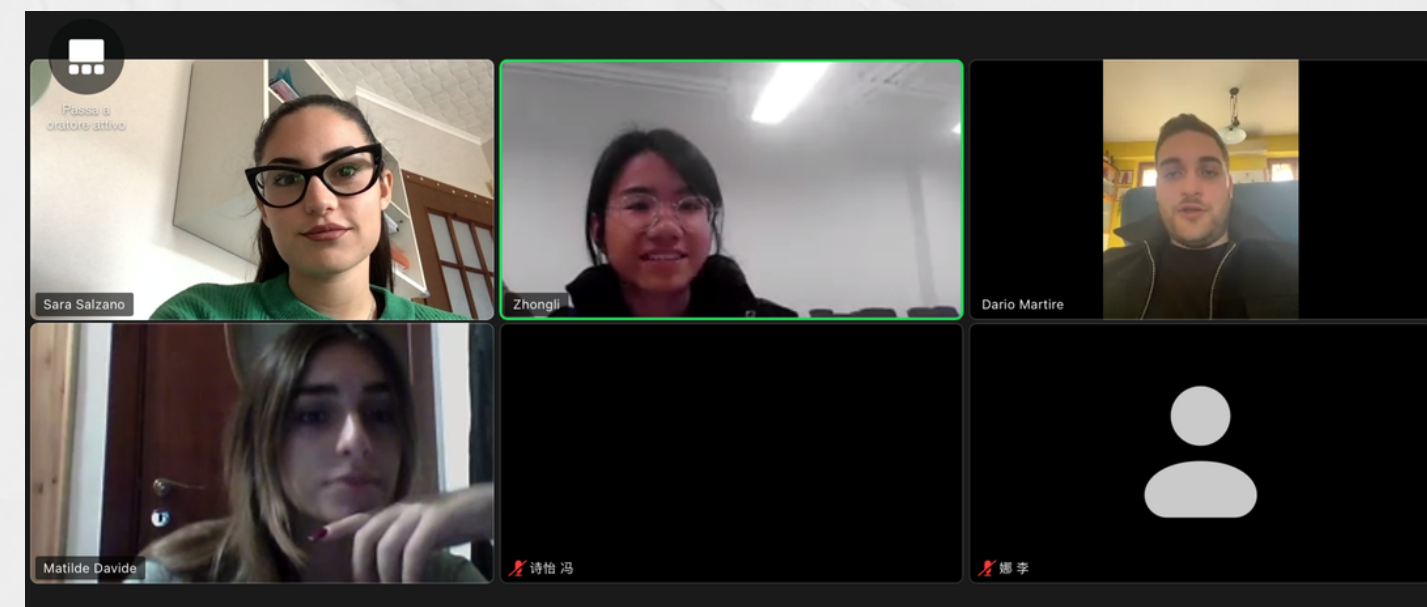

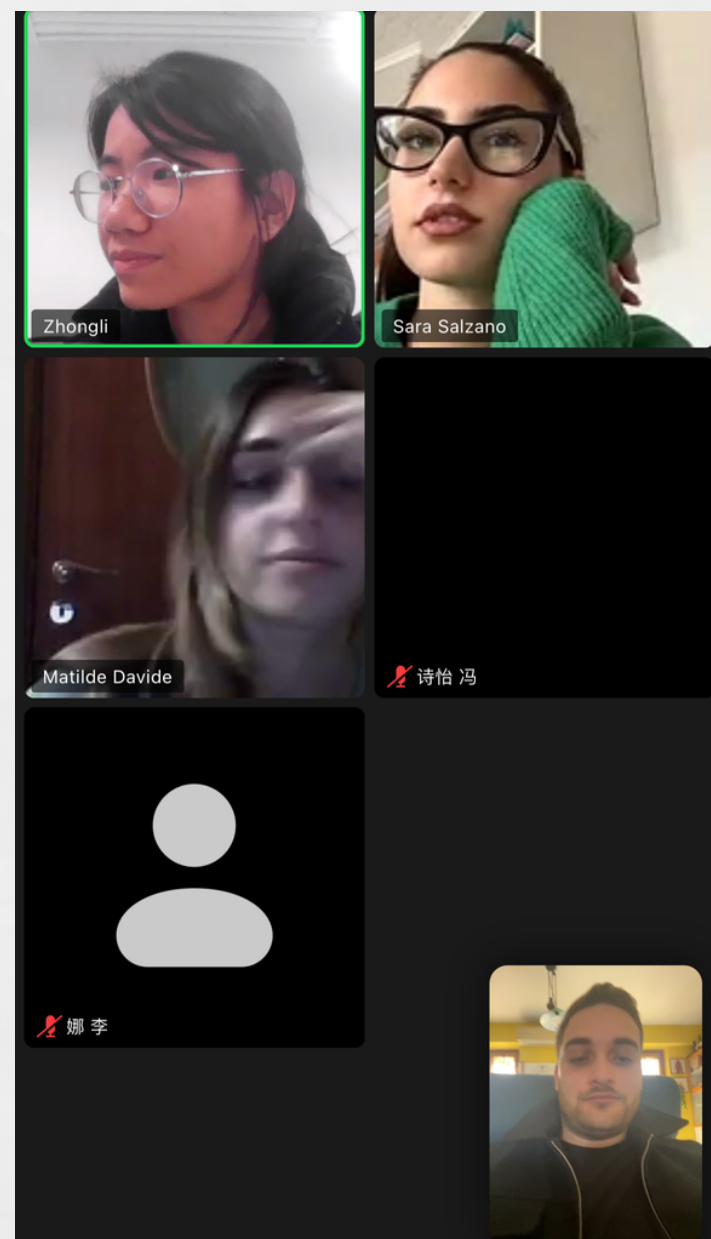

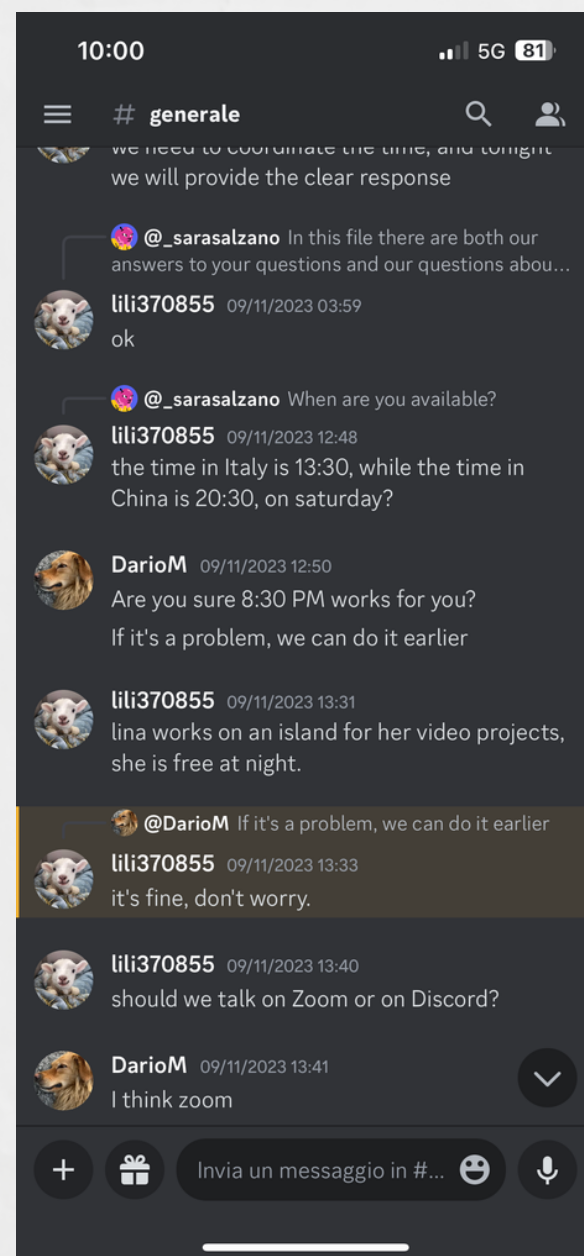

2. These things just pile up in the bedroom and I'm reluctant to throw them away.

3. It seems that they like to talk with others, and chatting with others makes them feel happy and happy, just like young people

4. Poverty refers to when our grandparents were young. Our grandparents were people of the 1950s. When they were young, they were so poor that they often couldn't eat enough food. Eggs and rice were precious, and meat was rarely eaten. Therefore, they had even fewer clothes and necessities. We can upload some videos later to supplement this. Nowadays, living standards are getting better, so they are not poor anymore. However, the memories of poverty in the past are very deep for them.

Week 3

Then we organized with them on Discord to plan a meeting on Zoom. We had a video call together and it was a very enjoyable and interesting experience! We talked about our briefs and clarified further questions about them.

**Now we are waiting for their ideas
about our project and we are
brainstorming our ideas.**
